

RIZKY FAUZI RIMANSYAH

ROBLOX SCRIPTER & WEB
DEVELOPER

CERTIFICATE

- MOS.
- TOEIC (800).

PROFILE

Informatics Engineering student specializing in Roblox Gameplay Scripting (Luau) and Full-Stack Web Development (Laravel & React). Proven track record in architecting modular client-server game systems, AI pathfinding, and secure web application backends. Experienced in mentoring aspiring developers and engineering scalable, clean-code solutions.

EDUCATION

(2022–2026)
Institut Digital Ekonomi LPKIA
informatics Technique

WORK EXPERIENCE

Roblox Game Developer & Gameplay Scripter (May 2025 – Present)

- **Shipped 9+ Live Roblox Experiences:** Owned the complete development lifecycle from concept and system architecture to live deployment, scripting core gameplay loops, state machines, and responsive player mechanics.
- **Performance & Memory Optimization:** Optimized real-time multiplayer performance for high player-count servers by implementing part streaming, object pooling, and rigorous cleanup of event connections and instances using Maid / Janitor lifecycle patterns.
- **Data Persistence & Economy Systems:** Implemented robust session-locking player save data using ProfileService and Roblox DataStore, ensuring zero data-loss for player inventories, currency, and gameplay stats.
- **AI & Gameplay Systems Engineering:** Engineered custom wave-spawning algorithms, pathfinding AI for enemy navigation, grid-based placement systems, and modular combat logic

SKILLS

- Luau / Lua (Roblox Studio)
- Client-Server Networking
- DataStore / ProfileService
- Git.
- Problem Solving.
- Laravel & PHP.
- MySQL.
